What is the McQuaig Institute of Executive Development?

The McQuaig Institute® has helped companies make better people decisions for over thirty years. Their founder, Industrial Psychologist Jack H. McQuaig, researched thousands of companies, assessing their high and low performers. He discovered that people rarely succeed or fail due to lack of skills or intelligence – instead, their success or failure is due to personal characteristics such as attitude, motivation and, especially, temperament and behaviour patterns. The Institute is based in downtown Toronto. Visit their website at www.mcquaig.com

Do you offer a free trial?

Yes, just give us a call or email us, and we will call you to assess your needs, and arrange a suitable trial.
